SUMMARY

Computer Engineering graduate with hands-on experience in Python, Django, Django REST Framework (DRF), and MySQL for backend web development. Skilled in developing REST APIs, authentication systems, CRUD applications, and responsive web applications using HTML, CSS, JavaScript, and Bootstrap. Strong foundation in Object-Oriented Programming, Data Structures, SQL, Version Control (Git), and database management with a passion for building scalable software solutions. Seeking an entry-level Software Engineer or Python Developer role.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Frontend Technologies: HTML5, CSS3, JavaScript, Bootstrap

Backend & Frameworks: Django, Django REST Framework (DRF)

Databases: MySQL

Core Skills: Object-Oriented Programming (OOP), Data Structures, REST API Development, CRUD Operations, DBMS, MVT Architecture, Authentication, Session Management, Responsive Web Development

Developer Tools: Git, GitHub, Version Control, Git Desktop, Postman, Selenium, VS Code

EXPERIENCE

Full Stack Developer Intern – A2Z IT HUB *Jan 2026 – Present*

- Built 10+ responsive web pages using HTML5, CSS3, JavaScript, and Bootstrap for desktop and mobile devices.
- Enhanced website navigation, reducing user interaction steps by 25%.
- Integrated 6+ backend features using Django, Django REST Framework, and MySQL while collaborating with a 4-member development team.
- Resolved 20+ frontend and backend issues during testing and integration, improving application stability and usability.

Software Intern – System Tron (InternPe) *Jan 2024 – Mar 2024*

- Built 5+ Python applications implementing Data Structures and Algorithms using Object-Oriented Programming principles.
- Increased application execution efficiency by 20% through debugging and code optimization.
- Processed and analyzed datasets containing over 2,000 records using Pandas.
- Solved 30+ algorithmic problems by implementing optimized data structures, improving execution efficiency across all submissions.

PROJECTS

Online Exam Portal – Python, Django, MySQL *2026*

- Architected a secure Online Exam Portal serving Admin, Teacher, and Student roles using Python, Django, MySQL, HTML5, CSS3, JavaScript, and Bootstrap.
- Configured role-based authentication and created CRUD modules for exams, subjects, question banks, and user management.
- Developed timed online examinations with countdown timer, automatic submission, and answer validation.
- Automated MCQ evaluation with instant result generation, reducing manual grading effort, and producing student performance reports with exam analytics dashboards.
- Enhanced application security using password hashing, session management, and responsive UI design.

CareerConnect – Placement Portal – Django, MySQL *2026*

- Engineered a placement portal using Django (MVT architecture) with secure authentication via password hashing and session management.
- Connected MySQL database for efficient data storage and retrieval; applied CSRF protection, input validation, and role-based access control.

Student Management API – Django REST Framework *2025*

- Designed a REST API using Django REST Framework (DRF) with CRUD operations, handling HTTP requests and JSON responses with MySQL integration.
- Validated REST APIs using Postman to ensure functionality and reliability.

EDUCATION

Sinhgad Academy of Engineering, Pune *2021 – 2025*

Bachelor of Engineering in Computer Engineering — CGPA: 7.90/10

CERTIFICATIONS

Deloitte Data Analytics Job Simulation • Tata GenAI Data Analytics Simulation • Python Essential Training (LinkedIn Learning) • Microsoft Azure AI Fundamentals • Infosys Web Design Certification
